Madurai, Tamil Nadu

CAREER OBJECTIVE

Aspiring Java Developer with knowledge of Java, Spring Boot, PostgreSQL, and REST APIs. Experienced in building academic and personal projects focused on backend development. Seeking internship, trainee, or entry-level opportunities to develop my skills and contribute to real-world software development projects.

EDUCATION

Bachelor of Science in Computer Science Rajapalayam Rajus' College | 2023 – April 2026 | Virudhunagar
Higher Secondary Education TNPM Higher Secondary School | Completed 2023 | Dhalavaipuram

TECHNICAL SKILLS

Languages: Java, SQL, HTML/CSS
Frameworks & Technologies: Spring Boot, Spring Security, REST APIs
Databases: PostgreSQL
Tools: Git, IntelliJ, Postman
Core Concepts: OOP

PROJECTS

AI Project Idea Generator (Full-Stack Web Application) [Live Demo](#) | [GitHub](#)

Technologies: Java 21, Spring Boot, PostgreSQL, Redis, HTML, CSS, JavaScript, Hugging Face API

- Developed a full-stack web application using Java 21 and Spring Boot to generate personalized software project ideas based on user preferences.
- Integrated the Hugging Face API to dynamically generate project architectures, database schemas, API endpoints, and learning roadmaps.
- Generated project ideas tailored to different skill levels, programming languages, frameworks, and project domains, providing academic project suggestions and learning roadmaps for students and beginner developers.
- Implemented PostgreSQL for persistent data storage and Redis caching to improve application performance and session management.
- Built responsive frontend interfaces using HTML, CSS, and JavaScript with asynchronous API communication.
- Deployed the application on cloud platforms and gained hands-on experience with API integration, database connectivity, environment variable management, and full-stack deployment.

Vijay Shop – E-Commerce Backend Application

- Built backend features for an e-commerce application using Java, Spring Boot, and PostgreSQL.
- Implemented JWT-based user authentication and user-specific cart and order functionality.
- Created REST APIs for product, cart, and order management.
- Tested API endpoints using Postman.

EXPERIENCE

Micro-Intern (Web Development) @ Anjana Infotech May 2025 | Virudhunagar

- Completed a mini-internship focused on foundational web development.
- Finished practical technical tasks assigned by the industry mentor.
- Gained hands-on experience in building and designing web pages.

CERTIFICATIONS

Certificates

- Java Assessment Certification – LearnTube
- Spring Basics with Spring Boot – Infosys Springboard
