Madurai, Tamil Nadu

### PROFESSIONAL SUMMARY

B.Sc Computer Science graduate (2026) with knowledge of Java, Spring Boot, PostgreSQL, and REST API development. Experienced in building backend applications through academic and personal projects. Seeking an entry-level software development opportunity to apply my skills and grow as a software developer.

### TECHNICAL SKILLS

**Languages:** Java, SQL, HTML/CSS

**Frameworks & Technologies:** Spring Boot, Spring Security, REST APIs

**Databases:** PostgreSQL

**Tools:** Git, IntelliJ, Postman

**Core Concepts:** OOP

### EXPERIENCE

#### Micro-Intern (Web Development) @ Anjana Infotech

May 2025 | Virudhunagar

- Completed a mini-internship focused on foundational web development.
- Finished practical technical tasks assigned by the industry mentor.
- Gained hands-on experience in building and designing web pages.

### PROJECTS

#### AI-Powered Software Architecture Generator (IdeaGen AI)

[Project Link](#)

**Technologies:** Java, Spring Boot, PostgreSQL, HTML, CSS, JavaScript, REST APIs, Hugging Face API, Hibernate, Spring Data JPA

- Developed a full-stack web application that generates customized software project ideas, database schemas, API endpoint suggestions, and learning roadmaps based on user preferences.
- Built RESTful APIs using Java Spring Boot to process user inputs and communicate with Hugging Face AI models for dynamic content generation.
- Designed and implemented a PostgreSQL database using Spring Data JPA and Hibernate to store generated project history and user requests.
- Created a responsive frontend using HTML, CSS, and Vanilla JavaScript with asynchronous API communication and dynamic content rendering.
- Implemented exception handling, input validation, and structured JSON responses to improve reliability and user experience.
- Gained hands-on experience with AI API integration, backend development, database management, and full-stack application architecture.

#### Vijay Shop – E-Commerce Backend Application

- Built backend features for an e-commerce application using Java, Spring Boot, and PostgreSQL.
- Implemented JWT-based user authentication and user-specific cart and order functionality.
- Created REST APIs for product, cart, and order management.
- Tested API endpoints using Postman.

### EDUCATION

#### Bachelor of Science in Computer Science

Rajapalayam Rajus' College | 2023 – 2026 | Virudhunagar

#### Higher Secondary Education

TNPM Higher Secondary School | 2016 - 2023 | Dhalavaipuram

### CERTIFICATIONS

Certificates

- Java Assessment Certification – LearnTube
- Spring Basics with Spring Boot – Infosys Springboard
